### REPRESENTATIVE AMERICANS

#### S.S. Mongolia Will Bring Many On Next Thursday

The Pacific Mail steamer Mongolia will arrive at Honolulu three days behind her regular advertised schedule but the vessel is to bring a party of representative Americans included among her passengers destined to the Far East.

The Mongolia is leaving San Francisco on Friday, according to late advices received through the agency of H. Hackfeld & Co. This will bring the fine Pacific Mail liner into Honolulu on Thursday morning of the following week.

This is the vessel that is scheduled to transport a party of business and professional men and also a sprinkling of tourists for a round trip to Japan and China. The party will number at least one hundred if the announcement now on file at the office of the Promotion Committee can be counted upon as authentic.

Special attention will be given towards extending a fitting welcome to the members of the party during their brief stay at Honolulu.

There is a drive to the Pali for those who desire to visit the famous scenic spot. The museum and the aquarium will come in for an inspection. The party will be served a lunch at Waikiki and it is possible that the vessel will be dispatched for Japan along about 5 o'clock on the afternoon of August 18th.

The excursion party is due to return to Los Angeles by the middle of October, having visited practically all points of interest throughout Japan and China.

The delay in the departure of the Mongolia will, it is said, not inconvenience the party of tourists in the least. This vessel met with an accident while near Yokohama and went ashore causing an unavoidable detention there of six days. This caused an alteration of the regular schedule.

Agitation has been started toward making Yokohama a free port, similar to Hongkong, according to advices brought to Victoria, B. C., by the steamer Sumner.

His father died in Honolulu two years ago and his mother in China ten years ago.

It was in May of this year that Honn left China and he arrived here June 19, since which time he has been held at the immigration station. Castle & Withington appeared for the Chinese. Ten days were given by the court for the answer to be filed.

### THETIS RUSHING REPAIR WORK ON BOILERS

#### Poachers May Gather Many Wings At Laysan

### SHARK-FIN STORY NOT BELIEVED

#### Schooner Concord May Make Another Trip To Guano Island—Reveals Boat Considered Too Slow To Catch Japanese Schooner.

The Japanese who were left at Laysan Island less than two weeks ago will have ample time to make a big killing of birds, prepare fat and blubber for shipment, and all away before the United States revenue cutter Thetis or any other vessel could reach the lonely mid-Pacific island and apprehend them or overhaul their craft.

A local Japanese official has given out as his belief that the presence of one or more Japanese schooners in the vicinity of Laysan should proceed nothing of a serious nature. It is claimed that the vessels sent out from Japan each season for a cruise through the Pacific are mainly in search of shark fins. At this time of the year it is contended that they usually call at some of the smaller islands with the hope of securing a limited supply of water.

This story might go very well were it not for the fact that the schooner met with by the officers of the Concord carried about half a dozen officers and twenty-five men. It would seem rather unusual for such a large company to be found aboard a small schooner whose only mission for roaming the seas was the pursuit of the man-eating shark and securing his marketable fins and bones.

"When a vessel smaller than the little Concord is found near an outlying bird island, carrying a crew of between twenty-five and thirty men, it comes near being a safe bet that the vessel has been sent on a poaching expedition," stated an oldtime sea skipper this morning.

### SUDDEN DEATH OF RUSSIAN

#### Suspicious Case Takes Sheriff And Chief To Waiialua

Word has been received from Waiialua to the effect that one of the plantation laborers employed on the plantation had died under very suspicious circumstances. It appears that the man had had some dealings with the police department some months ago, and that he was in consequence in bad odor with some of the agitators, who have been from time to time conspicuous in Russian circles.

As soon as word was received by the Sheriff, he and Chief of Detectives McDuffie started off for Waiialua, and the two will investigate the whole circumstances surrounding the death of the Russian.

The man was in perfect health up till Saturday and then a stranger visited him at the Russian camp on the plantation. Soon after the stranger left for Honolulu and the laborer was taken ill. He died a few hours afterwards, and the circumstances were such that Manager Goodale telephoned in for an investigator and suggested that an investigation should be made into the case.

Deputy Sheriff Cox, of Waiialua, is looking into the matter also and he will see to it that Sheriff Jarrett and Chief McDuffie are put in possession of all the facts.

It was several years ago that the Hawaiian girl was married to a Japanese on Maui. They separated for some cause and she heard in what she thought an authentic manner of his death on Maui.

As it had been more than six years since she had seen this son of Nippon husband, Annie considered it quite likely that he was dead, especially as she had heard nothing from him in all this time.
